

Life/Work Direction

I wonder if your
experience with
Life/Work Direction
was like mine...

It was transformative . . .

It awakened me to my life possibilities.

Telling my life story opened my eyes.
I saw who I am as part of
God's purpose for me.

I let myself remember
when I was really alive—
not just successful.

I had it backwards!

Who I *am*
leads to what I *do*

Finding a fulfilling life work
has as much to do with
the inner life as the outer.

I saw patterns I had never noticed before—
some to nurture, some to release

Have you ever wondered how
Life/Work Direction does it?

This must take a lot
of time and resources...

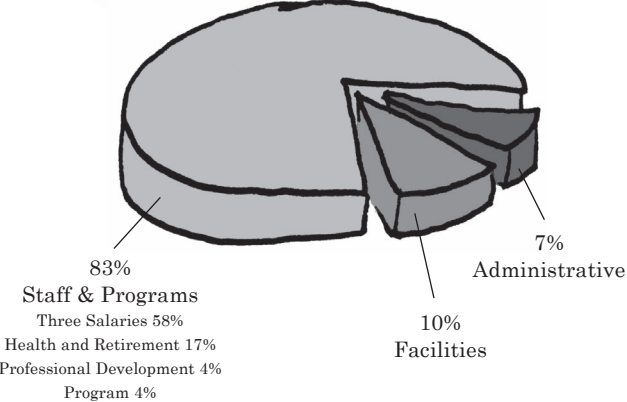

And there
were usually
two staff
members
with me...

... Giving
me time
and attention.

And my program fees
were very modest...

How do they stay afloat and keep their priorities?

Total Budget: \$179,000

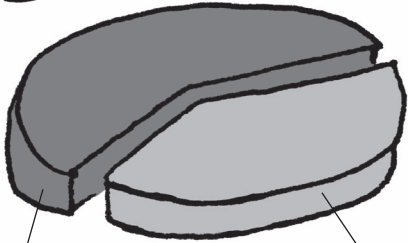

People are their priority.
Each person has hidden potential waiting to be discovered.

The process goes deep and takes time.

How do they do it when their affordable fees cover only 55% of their costs?

55%
Program Fees

45%

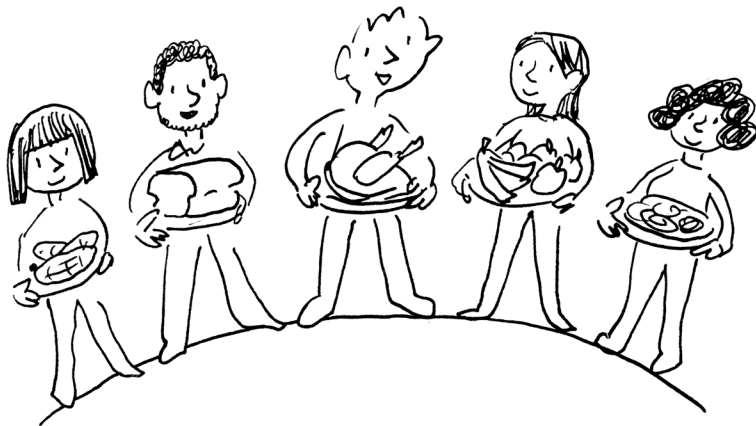

?

Total: \$179,000

Where do they find the other 45%

Oh! Friends like me become donors.

Who knew?

So I'm in!
I believe in what they do, I want to support this mission.

Life/Work Direction helps people live out their true calling as created by God.

If you feel the same way,
pledging your regular support helps
Life/Work Direction to continue
strong and helps them plan wisely.
